

NAD Board Secretary Milmaglyn Morales:

The **National Association of the Deaf (NAD)** is launching a series of virtual **Community Forums** to see and engage with your input directly. These open forums invite community members to share concerns, insights, and ideas to help shape NAD and the Deaf community's focus and advocacy efforts.

The forums are designed to receive input from individual members and affiliates on building a cohesive, forward-looking strategic platform for the NAD 2026 Conference in San Francisco, where the NAD Board and delegates will consider key topics for discussion and future action.

Five key areas will be explored:

- Accessibility
- Technology
- Education
- Employment
- Healthcare

Your voice matters. This is an important opportunity for meaningful community engagement and collaboration with NAD as we work together to strengthen our collective impact.

Join the conversation.
